

## Latest News updates now available in MIMS Online

Have you seen the “News” feature in MIMS Online?

The screenshot shows the MIMS ONLINE website header with navigation links: Home, News, ADR Form, and Help. Below the header, a green banner displays the user's name: "Welcome: CMPMedica Australia:DefaultUser". The main content area features a "Simple Search" section with a search input field, a "Search" button, and links for "Product Info", "Pill ID", "CMI", and "Drug Interactions". Additional links for "Advanced Search", "Browse Products", and "Pref" are also visible.

### What do you get?

We have included **MIMS Updates** – a list of the key medicines added or updated in the MIMS database every month that are important to you.

We also have our latest newsletters here.

- **MIMS Matters** contains the MIMS Australia general news, interesting articles, competitions, latest conferences and more and is sent out once a quarter.
- **MIMS Navigator** is our latest training newsletter with hints and tips on how to optimise the way our products are used.

The screenshot displays the "Latest News from MIMS" section. It features a table with three rows of news items, each with a thumbnail icon and a checkbox for registration. Below the table is a "Registration Details" form with input fields for "Name" and "Job Title".
